Profile

Results-oriented junior developer with 1.5 years of hands-on experience as a Junior Developer Intern at Skilltimate Technologies. Proficient in Python, Java, HTML, and CSS; experienced in designing and implementing application features, diagnosing and resolving bugs with unit/integration testing, optimizing performance, and collaborating via Git/GitHub within Agile teams. Currently pursuing a B.Tech in Computer Science (2023–2027) and seeking an entry-level software developer role to apply full-stack skills and contribute to product-driven teams.

INTERNSHIPS

Junior Developer Intern, Skilltimate Technologies, Hyderabad

Jul 2024 to Jan 2026

- Designed and implemented application features by writing clean, maintainable code, enhancing functionality and user experience.
- Diagnosed and resolved bugs through unit and integration testing, improving system reliability and reducing production issues.
- Collaborated with the development team using Git and GitHub for version control, code reviews, and streamlined deployments.
- Optimized application components to improve performance and responsiveness.
- Participated in Agile workflows, contributing to sprint planning, stand-ups, and on-time delivery of project milestones.
