

SRIDHAR MEDISHETTI

FULL STACK DEVELOPER

Hyderabad, India | medishettisridharvarma79@gmail.com | 9110301163 | <https://www.linkedin.com/in/sridhar-medishetti/> | <https://github.com/Sridhar-medishetti> |

PROFILE

Full Stack Developer with hands-on experience building scalable web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js), Java, and Python. Proficient in RESTful API design, JWT authentication, and responsive UI development. Delivered production-grade projects including a cloud kitchen delivery platform with Razorpay integration and a Python-based file encryption tool. Familiar with Agile development practices, Git-based version control, and CRUD-driven database design. Seeking to contribute to a collaborative engineering team and grow within a fast-paced software development environment.

EDUCATION

Lovely Professional University, Jalandhar
Computer Science and Engineering

Jun 2018 to May 2022

INTERNSHIPS

Object oriented Programming with Java, Ebox technologies
Jalandhar

Jun 2020 to Aug 2020

- Engineered robust backend modules using **Java**, focusing on **Object-Oriented Design (OOD)** principles to improve code modularity and reusability.
- Developed and optimized data structures to enhance application performance and processing speed.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Bootstrap

Backend: Node.js, Express.js, Java, Python

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub, REST APIs, Agile, VS Code

PROJECTS

1. Cloud Kitchen Delivery Management | MERN |

Mar 2026 to May 2026

<https://github.com/Sridhar-medishetti/Restaurant-Delivery-Management>

- Developed a scalable full-stack cloud kitchen and food delivery web application using the MERN Stack with responsive UI and secure JWT authentication.
- Integrated Razorpay payment gateway to enable seamless online transactions and improve checkout experience.
- Utilized GitHub for version control and collaborative project management.
- Optimized MongoDB queries reducing load time by ~40%
- Built **10+ RESTful APIs** and implemented CRUD operations for cart management, food inventory, order processing, and delivery tracking using MongoDB.

2. Data Cryptography | Python

Jan 2022 to Apr 2022

- Developed byte-level data transformation modules to maintain file integrity and prevent data corruption during recovery.
- Implemented encryption support for text, image, audio, and video files while maintaining file integrity during secure data recovery.
- Designed a user-friendly GUI for secure key-based authentication, encryption, and decryption operations.
- Improved understanding of cryptography concepts, file handling, and secure data processing techniques.

3. Library Management System | HTML, CSS, JavaScript, Node.js

Jul 2020 to Sept 2020

- Developed a responsive CRUD-based Library Management System with authentication, REST API integration, and dashboard functionality, **supporting 5+ user roles and managing 200+ book records with real-time issue/return tracking.**
- Implemented book issue, return, and fine management workflows to streamline library operations efficiently.
- Designed intuitive login and registration modules with user-friendly navigation and responsive design.

PROFESSIONAL TRAINING AND CERTIFICATIONS

Java Programming	- EBOX TECHNOLOGIES	May 2020 to Aug 2020
HTML, CSS, JavaScript	- NxtWave	Jan 2026 to Feb 2026
Programming with Python	- NxtWave	Feb 2026 to Apr 2026
Introduction to Data Bases (MySQL , MongoDB)	- NxtWave	Jan 2026 to Feb 2026

LANGUAGES

Telugu, English, Hindi

EXTRACURRICULAR ACTIVITIES

Blood Donation Camps, Redcross Nalgonda	May 2022 to May 2024
• Conducted many awareness camps and educated students in colleges and schools about importance of blood donations.
